

Crystal Ball Software and Risk Analysis Tips

(#43) Release Notes File

Do you ever wonder what features are new to your version of Crystal Ball?

In your Crystal Ball folder, the file named Release.doc (in Versions 2000.2 and earlier) or Release.htm (in versions 2000.2.2 and later) documents the changes for each Crystal Ball release. Changes for major, minor, and point releases are included. For example, if you own Crystal Ball 2000.2, the release notes will cover all changes in Crystal Ball for the version you own and the changes in all other versions since Crystal Ball 4.0.

The Release.doc (or Release.htm) file has been available since Crystal Ball Version 4.0. For up-to-date information about the latest release, see the README.doc file (in Versions 2000.2 and earlier) or README.htm file (in Versions 2000.2.2 and later) in the same folder.
